EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>
Regular updates will be posted as they are available.
EPA Hotline: 844-607-9700

Comments: We have a process invented specifically for this type of mine runoff. We can process that water back to within drinking water standards. We can probably recover some metal assets to recover cost of processing. This is crisis we want to help. email or call us 800 718 7148.. we can help solve this disaster.
